+ COMPATIBLE WITH T8

Fitting composed of two independent profiles. The upper part being the bracket having two round pivots at the same distance as the T8 series.

What do we achieve with this series? Two advantages: The same punch press as the T8 series can be used as well as being at a competitive price, neither losing any strength or its proper function.

TECHNICAL DATA

SCREWS
INOX Metric 8

PUNCH PRESS REF.
PA-T8/18
