Robust fitting made up with the base at the width of the tubular profile and the sliding bracket to achieve different offsets with a width of 16.

This robust fitting is composed of two independent profiles: one acting as a base and the other as a bracket. Having the base the same width of the tubular profile and a movable bracket of 16 mm width to achieve different offsets.

Punch press compatible with those of the T9 family.

TECHNICAL DATA

SCREWS
Metric 8 stainless steel

PUNCH PRESS REF.
PA-T9/18
