1.	T5 0914C	8.5	14.0	-	30.5	250	1,2370
2.	T5 1018C	9.5	18.0	-	30.5	250	1,2370
3.	T5 1120C	10.5	20.0	-	30.5	300	1,2370
4.	T5 2015-63	19.5	15.0	6.3	30.5	250	1,2370

Fitting classified in the family of the locking series; made up of two perfectly assembled flat wing profiles, providing great robustness in the profile where it is housed. These series are manufactured for all chambers and different widths of profiles. We can adapt the round pivot to any different market distances. They are designed for narrow chambers, due to the fact that the pivots of these brackets are smaller than those of the other series, which allows us to reduce the width of the bracket.

It is manufactured in any cut and chamber. Specially designed for small chambers
