FITTING
TM 75

	Item	Dimension A	Dimension C	Dimension D	Dimension Z	Units	Price
1.	TM75 1514	14.5	13.8	-	37.5	200	1,4165
2.	TM75 2514-90	14.5	13.8	-	37.5	200	1,4165

+ PATENTED

This fitting patented by ESTOAL, is unique to anything else on the market. The outstanding feature is the reinforced Aluminium along the whole length of the fitting, giving it extra strength, avoiding any deformities or defects making the fit perfectly tight and robust thus guaranteeing perfect performance and an extremely user friendly fitting similar to die-cast aluminium fittings.

The TM75 family, with the same characteristics as the TM family, has a 7.5 mm pivot, which provides the ability of not having to move it in some cases or place it in narrower channels.

TECHNICAL DATA

SCREWS
Zinc plated metric 6

PUNCH PRESS REF.
PA-TM75/18

ACCESSORIES
25, 30, 37
